ABOUT THIS GUIDE

Senior Living Guide provides concise, practical and current information to help older adults & their families find and arrange for living and care services. It serves as a shared resource for professionals assisting and counseling, and for those seeking services. The Guide offers a handy checklist for evaluating living options and a free request card for additional information about specific facilities and services. Guide users will find the Resource Directory listings, senior center section, independent, assisted living and licensed nursing facilities listings to be helpful and convenient resources.

Don't forget to say you saw it in the Senior Living Guide!

Compassionate care you can count on.

Acute Inpatient Rehabilitation

Our Acute Rehab Unit helps patients who are experiencing a loss of function from injury or illness. This may include:

- Impaired mobility, balance and coordination
- Limited strength and range of motion
- Sensory loss or visual/perception problems
- Cognitive problems (issues with memory, problem-solving, etc.)
- Speech and communication problems

Our team of rehabilitation professionals teaches patients how to maximize function, from regaining the ability to walk after a fall or amputation, to learning to talk following a stroke and re-learning personal care after a serious illness.

Home Health Services

Our professionally administered services are available for those recovering from illness or injury and those with chronic conditions or disabilities. Provided to patients in their place of residence, services include:

- Home Health Aide Services • Home Infusion
- Medication Education • Palliative Care • Registered Dietician Services
- Skilled Nursing • Social Services • Specialized Behavioral Health Nursing
- Telehealth Services • Therapy (Physical, Occupational, Speech)
- Wound Care • 24/7 Patient call line

Southwest General's Home Health Services are available by physician referral. Contact us, and we will work with you to get the care you need.

Hospice Services

We provide comprehensive hospice care for patients and families in the comfort of their own home or at our Thomas P. Perciak Family Residential Hospice, in Strongsville. Our holistic approach to care focuses on dignity, comfort and compassion and includes:

- Experienced, caring staff • 24/7 nursing support
- Individualized patient care • Symptom relief
- Comfort care • Bereavement counseling • Special recognition for veterans

Contact us for more information or to arrange an appointment if your loved one's needs exceed the care of family and friends.

The Essence of EnnisCourt

Dedication and commitment to dignity, care, caring, compassion, comfort and kindness – the true essence of EnnisCourt.

Our Skilled Nursing and Assisted Living facilities offer rehabilitative and rejuvenating therapies to help residents maximize their independence and discover personal fulfillment.

Through our holistic approach, we nourish the complete person – mind, body, spirit and soul – in a sensory stimulating community of faith.

Families partner with our caregiving team in creating an individualized, person-centered plan of care for their loved ones. This contributes to EnnisCourt's consistently high ratings in resident and family satisfaction.

EnnisCourt is deeply committed to supporting the traditions of the Catholic faith. Several dedicated priests provide pastoral services, celebrate Mass and administer sacraments that bring healing, reconciliation and peace.

“Every elderly person, even if he is ill or at the end of his days, bears the face of Christ.” – Pope Francis

Where to Start & Who Can Help

A number of organizations and professionals can assist older adults and their families with the often difficult task of assessing what help is needed and in finding and arranging for the right living and care options. These include:

- Hospital social workers / discharge planners
- Long Term Care Ombudsman – offers consultation and guidance with nursing home placement and provides information about adult care homes.
- Geriatric Assessment Programs – are usually affiliated with a hospital and utilize its resources to offer a multidisciplinary team approach in evaluating an older person's physical, mental and social well-being and functioning. They help the client and family in making appropriate care plans.
- Care Management Organizations and private care managers – specialists in geriatric services assess the needs of older persons (usually in the older person's home), arrange for and coordinate services and provide monitoring and follow-up for as long as needed or desired.
- Community Senior Programs – most offer health and wellness screening, classes and counseling, Medicare and insurance claims assistance, Information and Referral services, and discounts on services offered by the sponsoring organization or contact your local Area Agency on Aging
- Admission directors of independent living, assisted living and nursing homes

Home Care Services

Overview brought to you by:

Right at Home

In-Home Care and Assistance

Shalom Plotkin, Owner

Many home health, personal care and social services are available in Cleveland and NE Ohio to assist temporarily disabled and frail people wherever they call home. These include:

Home-based Personal Care & Private-Duty Assistance

- Personal care aides and State Trained Nursing Assistants (STNA's) provide assistance with bathing, hygiene, getting dressed, grooming, fall prevention, and daily health reminders
- Light-duty housekeeping, laundry and may provide pet care
- Enjoy conversation, help with socialization and may play memory games
- Serve Meals on Wheels or go grocery shopping, and may cook special diets
- Sitters jump in when someone cannot be left at home alone
- Escorts accompany seniors to appointments and shows in their vehicle or the client's car
- Emergency alert monitors, safety bracelets, and medication dispensers are available

Most home care is provided by family members who suddenly find themselves in a caregiving situation. These services are often ordered by family members by the hour, or for a week of respite, but often times the relationships that develop with compassionate caregivers can last for years. You may expect your

professional caregivers be screened, trained, tested, insured and supervised. Their supervisor will ensure that they have equally caring and reliable back-ups. Right at Home prides itself on reducing the hospital re-admission rate of our clients by an industry leading 57%.

Who pays for non-medical home based care?

That Depends. Unfortunately, the majority of private duty care is private pay. Medicare or Medicaid covers some home health care services but only under very specific and limited circumstances. Some are fortunate to have purchased long term medical coverage. The professional helping with assessment and care planning can guide you as to which services will be covered by insurance. If income is limited, one may be eligible for Ohio's Passport Waiver program or the Veteran Administration's Aide and Attendance program. Consider researching disease specific foundations, community grants, and reverse mortgages. Some drug manufacturers and charitable hospitals offer hardship programs for qualifying patients.

What types of covered Skilled Nursing and Instruction can be delivered in the home?

- In-home nursing, wound care and therapy
- Home infusion and laboratory services
- Pain management, palliative care, and hospice services
- Medical equipment, beds, commodes, and adaptive services

Among the services that health professionals provide in the home is teaching self-care to the patients and care-giving techniques to family members. Caregivers must take time to nurture themselves as well or may suffer from burnout and exhaustion.

Community based services are now also available, such as:

- Adult day care
- Municipal senior centers and transportation
- Congregate housing and meals
- Support groups (such as Alzheimer's) or other disease specific organizations
- Home modifications such as grab bars, ramps, sensors, and chair lifts
- Geriatric assessment programs and care managers
- Your house of worship may have a sunshine team, Parish nurse, or chicken soup brigade

How to start getting help

Contact a doctor for help in evaluating the medical condition and the support needed in the home setting. Montefiore's New Home Smart Memory Care Program

We'll help you and your loved one navigate the memory care journey

Montefiore, a leader in senior healthcare for over 137 years, announces an innovative Home Smart Memory Care program designed to provide personalized memory care services and support to individuals so they can live in their residence as long as possible. This unique program is one of the first in the region and aims to help community members age in place while easing the burden and stress of caregiving on family members.

Montefiore's Home Smart Memory Care program offers a coordinated approach to helping those with dementia. It's easy to get started – our team of memory experts visits the home and completes a complimentary assessment. This includes a home safety review, thorough functional, cognitive and nursing assessments (including a medication review), nutritional screening, life-enrichment evaluation and needs identification. Following the home visit, clients receive a full report and personalized care plan with recommendations.

In addition to clinical care, our expert team offers a menu of care options and strategies to address unmet needs, provide referrals and arrange for services. The team will also help identify when individuals can no longer remain safely at home and support them through a care facility transition.

For more information or to schedule a complimentary comprehensive assessment, please call a member of the memory care team at **(216) 910-2323** or visit us online at **www.montefiorecare.org**.

Other Living Options

For the older person who cannot or does not wish to continue living at home and who does not need nursing home care there are an increasing number of other living options: (see also the Senior Living Facilities section of this *Guide*).

- **Retirement communities:** These are complexes that usually offer recreation and security, dining room meals and health screenings. They may include a variety of living accommodations: independent, congregate, assisted living and nursing care.
- **Continuing care retirement communities (CCRC):** Offer an older person a contract that provides independent living and various health care services for the balance of his or her life. Residents pay an entrance fee and monthly fees (some offer the rental option with no entrance fee) and can move from one level of care to another as needed.
- **Shared-living homes:** offers a family-like setting for older persons who are ambulatory and able to care for themselves. The operator usually provides cleaning, shopping, cooking and other minor services (see Long Term Care Ombudsman).
- **Adult Family Homes:** provide adult foster care in private homes in which room, board and personal assistance and supervision are available for three to five unrelated persons. State licensed. (See Ombudsman)
- **Adult Group Homes:** or board and care homes, house 6 to 16 persons and provide room, board, and personal assistance. State licensed.
- **Residential Care Facility (formerly Rest Home)** State licensed for 17 or more unrelated individuals who need care but who do not require full-time skilled nursing care. They are staffed 24 hours per day; provide special diets, assistance with self-administration of medication and help with walking, bathing, dressing, feeding, getting in and out of bed; not qualified for Medicare or Medicaid reimbursement. (See Ombudsman)

- **Long Term Acute Care Hospitals (LTAC)**

An LTAC is a long-term acute care hospital. They provide an acute hospital level of care and services for patients requiring a long hospitalization. The length of stay for an LTAC patient is typically 25-28 days. Services provided are in areas of: Ventilator weaning, 24-hour monitoring, IV therapy, Dialysis, medically complex-multi system failure, pulmonary disease, cardiac disease, stage III & IV wounds, neuromuscular disease, GI diseases, and post-op complications.

Retirement Communities

The increase in the over 65 population has resulted in a dramatic increase in the number and types of retirement communities geared to accommodate the needs of older adults.

Reasons for moving

Even though most older people would rather remain where they are, often circumstances make moving a serious consideration. Some of these factors are:

- Home is too big and difficult to maintain
- Need for cash from home equity
- The neighborhood has changed
- Family and friends are no longer nearby
- Health and social needs make the more secure and structured environment of senior housing appealing

If a move to a retirement community is being considered then it is best not to wait too long since there may be restrictive admittance requirements regarding health and finances. In general, facilities require that individuals be able to live rather independently upon entering and have sufficient income to pay the monthly fees for the time they expect to live there.

Planning for Moving

brought to you by:
Moves Made Easier
Ted Forthofer, President

Planning for Moving

Design a floor plan of your new living space incorporating only the existing or new furniture that will fit safely and comfortably. Consider taking the opportunity to purchase a new mattress, box spring, or TV. Select small and keepsake items which will fit on or in the pieces of furniture being moved or on walls. If your meals will be provided by the retirement community, move only essential kitchenware. Learn More about Moves Made Easier under Relocation Services in our Resource Directory.

Choosing a retirement community

Retirement communities offer one or more of the following types of living accommodations:

- Independent living
- Congregate living
- Assisted living
- Nursing care

Start by sending for information from the facilities in the locations of interest. Review the listing in the Senior Living Section and use the yellow “get-information” card in this *Guide* as a convenient way of requesting information. What do you want in a retirement community?

- City, suburban or country
- House, townhouse, apartment
- Low or high rise; one or two bedroom
- Ambience, lifestyle and the kind of social and recreational activities desired

The AARP guide to elderly housing communities advises:

- Learn the terminology to differentiate the kinds of care facilities that are available.
- Select retirement housing based on the services, amenities, location and ownership arrangements most suitable to current and future needs.
- Ask specific questions to determine the facility's viability, such as history of the management and the sponsor.
- Carefully examine the occupancy contract. Contracts can vary widely from one facility to another.

Visiting checklist

When visiting a community do the following:

- Evaluate the units based upon your space needs and their location.
- Walk through the entire complex and observe how the residents are using the services.
- Ask residents how they like living there. This is often best done at mealtime.
- If the facility has a respite or vacation program, consider spending some time at the facility in order to experience the normal living environment.
- Make sure you understand the requirements for admission to assisted living or nursing care, the policy for moving from one care level to another, any extra costs and if the facility has the appropriate certification.
- Get copies of all rental, lease and purchase forms and rules.

Financial arrangements

Financial arrangements vary so widely depending upon the location, type of community, type of accommodations and services offered that it is almost meaningless to generalize about costs. Many facilities are strictly monthly rental or yearly lease, some require a substantial entrance fee with monthly maintenance fees, and others require an endowment of assets. These usually are not inexpensive since they provide substantial services tailored to the needs of the elderly. Monthly rentals generally start at around \$1,000 and entrance fees or endowments can range from \$30,000 to more than \$100,000 plus monthly maintenance fees of \$500 to \$2,000 or more. About the only way to get an idea how much a facility will cost is to send for the information and carefully review the rates, preferably with an adviser.

Even though there appear to be many “retirement” communities available most are above the budget of low-income seniors. In this situation you may be eligible for federally subsidized private facilities and public housing. Contact your county Department of Human Services for detailed information.

Assisted Living

Assisted living is a broadly descriptive term for a level of care and support that ranges between independent living and nursing home care.

Assisted living facilities provide services for frail older people who are functionally and/or socially impaired and may need 24-hour supervision. Confusion often arises about another type of living and housing arrangement called “congregate living.”

Congregate living facilities generally provide sup-

portive services such as a main meal, housekeeping, social activities and transportation but do not provide the degree of personal assistance offered in assisted living facilities.

Residential Care Facilities (RCFs) provide a level of care that is clearly defined by state licensure requirements. These include, in addition to assistance with personal care, the ability to prepare special diets and provide assistance with self-administration of medications. They have trained staff on duty 24 hours per day.

Assisted living is offered in a variety of settings from senior apartment complexes to multilevel retirement communities or nursing homes. Accommodations, usually a small studio apartment or a single room with bath, are physically designed to serve those who need some assistance with activities of daily living, such as dressing and bathing; or those who use a wheelchair or a walker to get around. Some facilities have licensed nursing personnel who monitor medications and provide a variety of health counseling and screening programs. Others simply offer reminders to take medications.

In addition to basic charges fees are generally based on how many services are needed.

Assessing Nursing Home needs

There are no uniform standards that define assisted living. Services offered under this name vary widely. It is, therefore, especially important to make a careful assessment of the prospective residents' needs a part of the pre-planning before visiting facilities. This is the key to finding the assisted living facility that balances the needs of a physically and mentally frail older person and yet offers care and services based on choice and dignity in homelike surroundings.

Personal care needs

To determine needs consider the following questions: Why is a change in residence being considered? With what aspects of daily life is help needed: dressing, bathing, toileting, getting in/out of bed or chair, walking, eating, medications, decision making? How much help is needed and how often?

Other considerations?

What support can the older person expect from family, friends, others? Are they nearby? What financial resources are there to pay for care, now and for how long in the future? What plans are there if and when the resident needs more care than assisted living offers or funds are exhausted? Who will help the resident make decisions and plans if another move becomes necessary?

It is often difficult to make these determinations and decisions and to try to anticipate future needs. The prospective resident/family/friends will want to consult professionals such as the physician, private care managers and counselors, attorney, financial advisor and/or hospital discharge planner.

Choosing a senior living facility

Once the prospective resident's needs are defined and financial resources evaluated the process of finding the "right" facility can be narrowed.

Review the list of senior facilities in the Senior Living Facilities section and select those in the geographic area and care level of choice.

Request more information from these facilities by completing the yellow **Senior Living Information Card** at the back of this *Guide*, call us directly at (440) 338-5233 or visit SeniorLivingNEO.com for assistance in your search.

Review the facility brochures with your list of essential needs in mind and ask questions that apply to your situation:

- How are medications and special diets monitored? Who does this?
- What other health services are available?
- In case of sickness are meals brought to the room?
- Who provides personal care, how are these services scheduled, how much do they cost?
- Are all parts of the building accessible to those using wheelchairs?
- What recreational activities are offered?

Follow-up with phone calls and visits and if possible arrange for a trial stay to get a first hand feel for the facility's ambience and services. Talk to other residents at the facility about their experience. How and who on the facility staff (social service/recreation) will help the resident make the adjustment to the new setting and make the human connections which will make the facility truly a "home."

Types of Nursing Care

Government regulations have eliminated the distinction between intermediate and skilled facilities under the Medicaid program. Both are now classified as simply nursing facilities (NF). These level of care designations are still important, however, because they affect who pays for care. Medicare and most private insurance programs pay only for a skilled level of care. If payment under these programs is being considered it is important to clarify before admission to the nursing facility:

1. Level of care required
2. Verification that the nursing facility is certified for that level of care and that reimbursement will be approved.

Ask hospital discharge planners, the physician and nursing home staff to assist in clarifying these questions.

How to Pay for Long Term Care

Most seniors and their families start by paying for nursing home care out of their own resources. However, when care is needed for an extended period of time, the cost of nursing home care can quickly deplete life savings. You can expect to pay an average of over \$90,000 a year for a quality nursing home.

Medicare has serious limitations when it comes to paying for nursing home care although it provides major benefits for other health care services. Its focus is on acute illness and “skilled” care in nursing homes. It does not pay for the non-skilled home care or intermediate nursing home care which is the level of care needed by most individuals. For the individual who cannot afford the needed care or who

has depleted private resources in paying for care the Medicaid Program—not Medicare—can provide financial assistance for continued long term care.

Some nursing facilities are strictly “private pay” while others are certified to accept Medicare and/or Medicaid when an individual qualifies. If financial resources are limited, it is recommended that a Medicaid certified home be selected so it does not become necessary for the older person to relocate again when funds run out.

Medicare—What does it provide?

Medicare (Title XVIII) is a federal health insurance program which helps defray many of the medical expenses of most Americans over the age of 65. Medicare has four parts:

- Part A: Hospital Insurance: Helps pay the cost of inpatient hospital care. Under certain conditions, Part A helps pay for inpatient care in a skilled nursing facility, hospital related home health care and hospice care.
- Part B: Helps pay for necessary doctor’s services, outpatient hospital services, home health care and some preventive services, lab tests and therapy
- Part C: Offers coverage without the need for Medigap insurance
- Part D: Helps pay for prescription medications the beneficiary requires.

Eligibility: Under the Medicare regulations to obtain coverage in a NURSING HOME an individual must:

- Require daily acute skilled nursing care or rehabilitation services under a doctor’s care plan; 3 midnights of prior inpatient hospitalization required.
- Obtain care in a Medicare certified skilled nursing facility.
- Be approved by the facility’s Utilization Review Committee.

All of these conditions must be met. Eligibility is reviewed weekly. When it is determined by the review committee that the care is no longer needed at the facility, Medicare payment is stopped.

What does Medicare pay?

- Pays all charges for the first 20 days
- For days 21-100 it pays for all covered services, **except for a daily coinsurance amount**
For 2019, the coinsurance is \$170.50/day
- Beneficiary pays all expenses on and after the 101st day
- Pays unlimited days of hospice care for the terminally ill.

Detailed information about Medicare benefits can be obtained from the Social Security Administration (see reference section). Ask for the Medicare handbook or go to www.medicare.gov.

Medicaid—What does it provide?

Medicaid (Title XIX) is a needs based, means tested health care program cooperatively financed by Federal and State governments. Benefits cover both institutional and outpatient services. Medicaid will pay for skilled and intermediate nursing home care for as long as the individual is determined by a physician and the state Medicaid review department to need that level of care.

Eligibility: Ohio is now an Income Cap State. Eligibility for Nursing Home Care is based on age. Also, the amount of income you may have is subject to a capped Special Income Level (\$2,313 effective in 2019). You may need to establish a special type of trust to continue your benefits in a nursing home OR waiver program. Certain assets that in prior years were exempt are now countable. In Ohio the present requirements for a person to be eligible for nursing home care are:

- Total gross income per month from all sources may not exceed \$2,313 for a nursing home resident unless a mQIT is in place.
- Countable assets may not exceed \$2,000 for an individual and \$3,000 per couple. The family house may be exempt as long as the spouse or qualified relative lives in it, and the value is less than \$585,000 for a single person. A community spouse or disabled child is not subject to the cap.

There are provisions to protect the spouses of nursing home residents. Spouses of Medicaid nursing home residents may keep:

- At least \$2,030 up to \$3,161/month income
- \$25,282 or half of the couple's combined assets, whichever is greater, up to \$126,420.

The determination of income and assets can be complicated when a spouse is living. If substantial assets are present, it would be wise to contact an attorney or advocate for advice before an application is filed. See Legal/Estate/Financial Planning in the Resource Directory for information regarding local Medicaid attorneys.

What does Medicaid pay?

To determine this, an interview is required which may be conducted by telephone. If the application is approved, the nursing home resident must contribute all monthly income (except for a "personal and/or spousal allowance") from the Medicaid approval date and Medicaid will pay the balance up to the Medicaid per diem rate. Further detailed information is available from your local county Human Services Department (see reference section).

Other Considerations: Some Nursing Homes do not accept Medicaid as payment, or some may limit the number of beds for this program. However, in Ohio most Nursing Homes are dual certified. There are adequate Medicaid beds available. In order to

insure an appropriate facility in the geographic area you require, it may be advisable to pay from the individual's funds for at least one month. In this circumstance, an individual can continue to reside in the same facility. Private pay residents may choose to "spend down" assets before becoming eligible for Medicaid in Medicaid certified facilities. You may experience a delay in placement if the Nursing Home you choose offers Rehabilitation and is experiencing higher than normal admissions.

Other Programs: For low-income persons in-home nursing care and care in custodial facilities may be paid for under Ohio's PASSPORT program (1-800-626-7277) and the Optional State Supplement Program respectively. There are also beds available under the new Assisted Living Waiver thru Medicaid. Medicaid Eligibility is required. Ask the Area Agency on Aging in your county about these programs.

Managed-Care Health Plans and HMO's: These plans supplement Medicare insurance. They focus on illness prevention with a comprehensive system of health services. Benefits may include: not having to buy medigap insurance; dental, prescription and vision care. HMO's save costs by keeping patients in their system and typically restrict the choice of physicians.

Hospice Care

Hospice is a philosophy of care whose goal it is to help the terminally ill person pass free of pain and surrounded by family and or caregivers who understand and can respond to their special needs. Hospice services can be provided at home, or in a free-standing independent facility or nursing home. Hospice services are covered by Medicare with some cost sharing, by Medicaid and private insurance.

Starting the Conversation...

Vinney Hospice of Montefiore is there for you

There's a large difference in what people say they should discuss and what they actually end up discussing when it comes to their wishes for medical care at the end of life.

A national survey conducted in 2013 by The Conversation Project, an organization dedicated to helping people talk about their end-of-life care, shows that while more than 9 of 10 Americans think it's important to talk about their preferences for end-of-life care, fewer than 3 of 10 have actually held these sorts of discussions.

“Americans now overwhelmingly agree that it's important to talk with loved ones about how they want to live at the end of their days. Yet, we still find it hard to begin those conversations,” stated Ellen Goodman, founder of The Conversation Project.

The real work and heartfelt conversations begin when someone verbalizes his or her feelings and fears as health declines. When a person thinks ahead, shares his values and talks openly about his wishes, family and friends are empowered to go through the process with them and determine next steps.

To learn more, please contact a member of the Vinney Hospice team, 24/7, at 216.910.2650 or visit www.montefiorecare.org for a virtual tour of the Maltz Hospice House.

Choosing a Nursing Home/Facility

Advance planning

It is important that the older person participate in the decision making process as much as possible. Choosing a home that provides the kind of care and environment that meets the individual's physical, social, emotional and spiritual needs will significantly help the older person make the adjustment to the new surroundings. Primary factors affecting the choice of a nursing home are:

1. The type of care required: The facility should be able to provide the level of care needed. If you are unclear about how "level of care" is defined, the physician, hospital discharge planner or nursing home admissions director can help define.
2. The financial resources available: Families need to determine what funds are available to pay for care, such as Social Security, retirement plans, veteran benefits, long term care insurance, equity in a home, Certificate of Deposits (CDs) and Individual Retirement Accounts (IRAs) as well as any assistance from family members. If the older person is unable to pay for nursing home care, the choice of a nursing home is limited to a facility which accepts Medicaid and has an opening.
3. Location: The best choice is a facility convenient to family, friends and physician.

What to do? Where to start?

- Use the list in this guide to locate nursing homes in the desired area and check whether they are certified for Medicare/Medicaid if this is a requirement
- Choose a number of suitable homes
- Call the facility's admissions director

Things to ask on the phone

- Before making any visits, ask about particular services that will be needed. If the needed services are not available there is no point in making a visit.
- Is there a waiting list? How long is the waiting period if you need immediate care?
- What are the home's admission qualifications? Some require that residents be able to care for themselves to a certain extent. Some require proof or assurance in writing that bills can be paid. Some will not accept patients with mental disorders.
- Ask about basic costs, extra charges and anticipated increases.

Schedule visits and use the checklist

- Make an appointment to visit several of the facilities that sound appropriate. If possible take the prospective resident with you.
- Arrange to meet several of the key staff people such as the nursing and activities director.
- Observe the living environment and staff relationships with residents.

Nursing homes bill for two types of charges:

1. Daily rates for room, care and some nursing services
2. Extra charges for any services not included in the basic rate such as therapies, pharmacy, wheelchairs, dental care, hand-feeding or care for incontinence.

If you are a cosigner, ask what your obligations are. Ask what the transfer policy is if the older person will need to convert to Medicaid after all funds are exhausted.

After the visits, the list of appropriate homes can be narrowed. Further elimination can be made by talking to those acquainted with the nursing homes in the area – physicians, clergy, relatives, friends and the local nursing home ombudsman.

After you have identified a facility make a second visit to discuss final admissions procedures. However, you may find there is no vacancy. In that case, put your name on the waiting list. In the meantime, check other care alternatives that may be used to meet immediate needs (see Home Care Services section).

Legal Matters

You may find yourself responsible for managing your older relative's personal and business affairs and for deciding about particular medical treatments. Difficult choices and complex issues may be involved. Advance planning and discussion with your relative is extremely important. Some legal issues that older persons and their families need to consider include:

- Joint ownership
- Representative payee
- Power of attorney
- Springing power of attorney
- Durable power of attorney
- Medical power of attorney
- Guardianship
- Trusts, wills and possibly living wills
- Gifts

Consult with your attorney for appropriate legal assistance or contact ombudsman.

Advance directives

Federal regulations require that all health facilities participating in the Medicare or Medicaid programs such as hospitals, nursing facilities, hospice

and home-care programs and health maintenance organizations, ask patients when they are admitted whether they have advance directives. The law also requires that patients be informed of two important rights. The first is the right, under state law, to make decisions about their medical care—including the right to refuse or select medical treatment and of their right to prepare legally binding advance directives.

These are documents, usually a living will and/or durable power of attorney for health care, that reflect in writing, the individual's wishes regarding life-sustaining medical treatment if the individual becomes incapacitated.

A living will is a document in which the individual can specify in advance his or her wishes regarding withdrawing or withholding life-sustaining medical care in the event the patient becomes terminally ill and can't express those preferences to doctors or relatives. In Ohio these decisions must be in writing, must be signed and witnessed by two people not related by blood, marriage or adoption, or must be notarized.

A durable power of attorney for health care is a document in which a patient designates another individual, usually a family member, close friend or counselor, to make decisions if the patient is unable to do so. The patient may also give specific directions about treatments wanted.

For assistance in Legal, Estate, and Financial Planning, see our Resource Directory for local services and attorneys that can help.

Obtaining documents

Information about these documents is available in healthcare facilities, through attorneys or can be obtained in a packet by writing to the **LeadingAge Ohio (formerly Midwest Care Alliance)**:

Attorneys & Estate Planning

Brought to you by:
CMBA's Lawyer Referral Service
Katie Donovan Onders,
LRS Coordinator

Creating an estate plan to carry out your wishes can be overwhelming. Hiring an attorney to help you create your plan can make this task much easier. Although the internet is filled with options to create wills and powers of attorney on your own, an attorney will guide you through the process to be sure your documents meet all requirements set forth by Ohio law and reach the goals you have for yourself and your family. For example, there are requirements regarding witnesses that if not followed can cause a document to be invalid. In those cases, your intentions may not be carried out and Ohio law could end up directing how your assets are distributed or who will make your health care decisions.

If you choose to create estate documents on your own, it may end up costing you later to fix mistakes which an attorney could have addressed at the beginning. Complex family or financial situations, second marriages, real estate, disabled family members, minor children, divorce, and death can all present complexities that should be addressed in planning your estate. An attorney can provide an objective viewpoint and present you with options that will guide you through an estate plan which best fits your needs and helps you reach your goals.

Finding an attorney who works specifically with the issues you're facing is important. Look for an attorney who is experienced, in good standing with the Supreme Court of Ohio and maintains professional liability insurance. Cleveland Metropolitan Bar Association's Lawyer Referral Service (LRS) provides free referrals to attorneys who meet those requirements and will provide free initial consultations. Please call CMBA's LRS, Monday-Friday 9:00 am – 4:00 pm, at 216-696-3532 or find a referral anytime at: www.CleMetroBar.org/LRS

Visiting Checklist

1. MAKE APPOINTMENTS
2. VISIT AS MANY FACILITIES AS YOU CAN
3. TAKE THIS CHECKLIST WITH YOU

General

- ___ Does the home provide the level of care needed. i.e. skilled; intermediate?
- ___ If needed, is the home certified for Medicare and/or Medicaid?
- ___ Can residents stay if their payment source is converted to Medicaid?
- ___ Is there a waiting period for admittance?
- ___ Is a trial period required if possible for resident or facility to evaluate placement?
- ___ What are the admission qualifications?
- ___ Discuss the admission contract and all services and charges. Are financial and other important matters (refunds, etc.) specified?

Independent Living

The following section lists independent living facilities in Northeast Ohio. Independent living is ideal for older adults who can still live independently but desire access to assistance when needed, and the conveniences of living within a community that may provide services. Independent living can also be considered at facilities that provide assisted living and skilled nursing as a way to join and move through a community as health care determines. Independent Living may include the following:

- **Meal preparation**
- **Common areas**
- **Housekeeping & landscaping**
- **Security services**
- **Transportation**
- **Social/Recreational activities, wellness programs**

Many older adults turn to independent living as a way to downsize their current living arrangement and possibly decrease expenses. Most independent living communities are private pay but there are programs designed to assist with costs. For help on what questions to ask please see our Visiting Checklist in the “Who Can Help” section of the Senior Living Guide. **If you would like assistance finding independent living contact Senior Living Guide directly at (440) 338-5233 or visit www.SeniorLivingNEO.com.**

Assisted Living

The following section contains a listing of assisted facilities in Northeast Ohio. These facilities provide private housing units for older adults who are relatively independent. The definition of congregate and assisted living facilities can vary considerably from place to place. Congregate living facilities provide supportive services such as meals, housekeeping, social activities and transportation but not personal assistance care. Assisted living facilities typically provide a higher level of care and personal assistance for these activities of daily living:

- 1-3 meals per day
- Personal-care & medication monitoring
- Housekeeping, laundry
- 24 hr. emergency care (call buttons)
- Memory care services
- Social, recreational activities

For help on what questions to ask please see our Visiting Checklist in the “Who Can Help” section of the Senior Living Guide. **If you would like assistance finding assisted living, whether it be in your current city or a move to a new location, please contact Senior Living Guide at (440) 338-5233 or visit SeniorLivingNEO.com.**

Nursing Facilities

The following section contains listings of licensed nursing homes in Cuyahoga, Geauga, Lake, Lorain and parts of surrounding counties. It gives information on the number of beds in the facility as well as whether or not the facility is certified to participate in the Medicare and/or Medicaid program(s).

Key to Facility Codes:

100 = Number of beds

MC = Medicare certification

MA = Medicaid certification

AD = Alzheimer's Unit/Services

R = Rehabilitation Services

SN = Skilled Nursing

A number of the larger complexes offer a range of services including independent living, assisted living, intermediate care and skilled nursing care. For more detailed information about services, return the consumer response card included in this guide or call the facilities.

Note: If no certification status is indicated for a facility it may be for one of the following reasons:

1. The facility is new; has applied for certification and is waiting for approval.
2. The facility is strictly private; has not requested certification and does not accept Medicare or Medicaid residents. Verify the facility's certification status during the initial telephone call.

UH Bedford Medical Center Senior Network

History

Developed in 1997, The University Hospitals Bedford Medical Center Senior Network is made up of agencies and organizations that serve seniors. Originally focused in Southeast Cuyahoga County and Northern Portage and Summit Counties, the Senior Network now spans all of Northeast Ohio providing programs and services to improve the health status of seniors. The group fosters a new and innovative model for the area, one where agencies and organizations can work together for the good of their members and the seniors they serve.

UH Bedford Medical Center has been the organizational sponsor and advocate for the development of the Senior Network, and continues to provide hospital-related programs, services and financial support.

Purpose

“Uniting Our Seniors in Health & Wellness”

The Senior Network is made up of over 110 organizations (150 individuals) that serve seniors in Northeast Ohio (i.e. Offices on Aging, LTC facilities, Medical Supply Companies, Community Centers, Schools, and other local businesses).

The Senior Network develops mechanisms for the sharing of services and resources by seniors and provides a forum for collaboration. The goal is to provide more innovative programs and services to improve the health status of seniors. Benefits of membership include networking with other agencies, continuing education opportunities and a forum for discussion and idea sharing with peers.

The Senior Network annual sponsored events for 2020:

- Spring TBD
- Summer TBD
- Fall TBD
